

South China Sea Annual Meeting 2018

October 26-28, 2018

Hohai International Conference Center&Hotel (Junheng Hotel)

(No. 1 Xikang Road, Gulou District, Nanjing)

(Third Announcement, 25th September)

Hosted by the College of Oceanography, Hohai University, the “South China Sea Annual Meeting 2018” will be held in Nanjing, China.

The series of the workshops on “Mesoscale Processes in the South China Sea” has been successfully held for 4 times, sponsored by Xiamen University on the topic of “Ocean Meso-scale Processes at the Luzon Strait”, by Guangdong Ocean University on “Mesoscale Processes and Ocean Mixing in the South China Sea” by the Chinese University of Hong Kong on “South China Sea Coastal and Ocean Meso-scale Processes”, and by First Institute of Oceanography, State Oceanic Administration on “Mesoscale Processes and Deep Water Circulation in the South China Sea”, respectively. This will be the 5th international workshop of the series, and will provide an opportunity for exchanging and sharing ideas and recent progresses on the mesoscale/submesoscale processes and deep water circulation in the South China Sea (SCS).

Themes and topics:

- (1) In situ observation and simulation of mesoscale/submesoscale processes in the SCS
- (2) Air-sea flux and upper layer ocean mixing in the SCS
- (3) High frequency variability in the SCS
- (4) Multi-scale variability of inter-ocean water exchange and heat/salt budget
- (5) Deep water circulation in the SCS
- (6) Numerical simulation of the mesoscale processes and deep water circulation in the SCS

Sponsored by

College of Oceanography, Hohai University

Jiangsu Oceanographic Society (in preparation)

LTO, South China Sea Institute of Oceanology, Chinese Academy of Science
